Lt. Wilkes With Canadian Force Writes of Life

McGill Graduate at Salisbury
Says Troops Live Under
Great Difficulties

Dear — Jan. 15, 1915.

Your welcome letter reached me yesterday. I happened to be feeling a little under the weather so was confined to my billet.

Probably you will be interested to know that we have received orders to be ready to march in two weeks. This means that we will only get twenty-four hours notice after that time. I haven't had any word from the Department at McGill before your letter arrived so I found it very interesting. I am at present in command of the 2nd Troop of "H" Squadron, which is billeted at Tilshead, a village near the Plains. My troop is in a large farm house and the horses are stabled in surrounding sheds.

It is rather odd, not seeing any snow all winter. We have had rain instead—never have I seen so much wet weather. This small village was flooded last week. The road was two feet under water. This state of affairs has

changed for the better, however, as traffic is no longer held up. The cigarettes you spoke of have not been received as yet. It was most thoughtful of you, chaps, to think of sending anything. If I get an opportunity when we reach the firing line to send a postcard to the Architectural Department I will do so as I know you had more time to write but "tempus fugit." Remember me to all the years.

Our horses are looking much better after being in stables for a week. The life on the plains was too much for them. We were under canvas until Jan. 4th so you can imagine how tough we were becoming. I wish I had more time to write but "tempus fugit." Remember me to all the years.

Yours sincerely,
F. HILTON WILKES.
Lt. R. C. D.

Boston University trustees have authorized the establishment of a Boston University summer school, to be held shortly after the close of the college year. This is a new departure on the part of the institution. These departments will participate in the school of liberal arts, college of business administration, school of medicine and the school of theology.

For most of the departments sessions will begin about the first Wednesday in July and last six weeks of five days each week.

More Details of the McGill Base Hospital

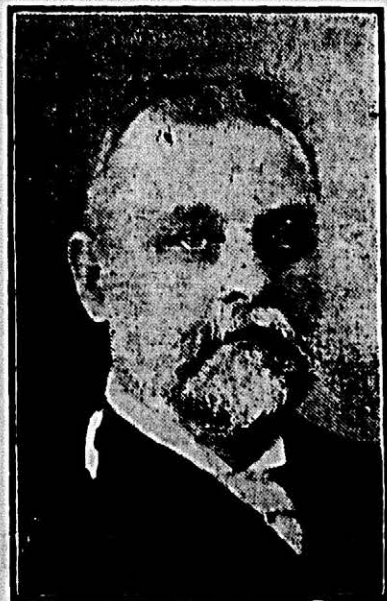

List of Those Who Have Volunteered is Now Made Known

STRETCHER DRILL BEING COMMENCED

Everything Being Got Ready for
Good Hard Work

The arrangements for the Base Hospital which will go on active service early in April are fast progressing. Dr. Birkett was busy all day at headquarters. The drills start to-morrow in earnest in the Assembly Hall of the New Medical Building. Major Yates has been of great assistance in this part and through him the authorities now have the stretchers for the drill. The men who have volunteered are all anxious to go although several, about twenty-five, have withdrawn their names. The one condition is that the men get their parents' consent.

The following men have volunteered:
FIRST YEAR.
Archibald, W. C.
Bankier, J. P.
Beveridge, W. W.
Boone, S. W.
Branch, E. A.
Davidson, W. M.
Fowler, F. E.
Gallagher, C. A.
Henderson, K. O.

DR. F. J. SHEPHERD.

Who will address the Medical Undergraduate Society to-morrow evening.

Hutchison, K. O.
Leggo, R. C.
Loane, H. L.
Lortie, A. C.
Macdonald, D. O.
McCormick, R. R.
McCullough, J. T.
McDonald, A. L.
McDonald, H. R.
Rose, W. H.
Spolin, H. G.
Tennet, R. E.
Laurin, E. M. (Dent.).
Primrose, V. S. (Dent.).

The Reading Competition On Wed. 10th

Judges Not Yet Chosen — Nine
Entries for Chester Mac-
naghten Prize

The annual reading competition for the Chester Macnaghten Prize will take place on Wednesday evening next. The exact place where this event will be held is not definitely known, but in all probability the Union will be the scene of the competition.

As is customary, Principal Peterson will act as one of the judges. The other two judges who must be one a lawyer and the other a clergyman, have not yet been named.

However, their names will be announced through the columns of the Daily at the earliest possible date.

The list of entries is as follows:
F. D. Dewey.
C. R. Kneeland.
J. Denney.
D. J. Donaghy.
R. W. Scott.
M. Flanders.
R. S. O'Meara.
J. Grier.

Dr. Scrimger to Give Lectures on Christology

Fine Course of Talks on Life and
Nature of Christ

The talks that Dean Adams has been conducting for the past four Sundays in Strathcona Hall will be followed by talks by Principal Scrimger of the Presbyterian College. The principal has been working up an especially interesting course in the History and Nature of Christ, known as Christology. The lectures of the dean of science were very helpful, and these will be probably more so, as Dr. Scrimger has signified that he will throw the meetings open for discussion and questions after the first half hour.

Any questions will be welcomed whether they are made by believers or not, as long as they are in earnest.

Futurities

To-day

12.00 p.m.—Science Hockey.
1.00 p.m.—R.V.C. '17 Class Meeting in English Room of R.V.C.

Feb. 13.—Hockey match, Queen's at McGill.
Feb. 13.—Medical Dinner.
Feb. 20.—Hockey match, Varsity at McGill.

Senior Play Friday Night

Miss Harvey Has Recovered and
Will Appear in Leading Part

To-morrow night, the McGill Senior Play will be staged at the Royal Victoria College. Last evening, the first dress rehearsal was held and the showing made by the players was such as to make the critics most pleased with the work that has been done. Everything went off smoothly and undoubtedly the production to-morrow, is going to be one that will set a very high standard for future Senior classes to keep up.

The play itself is a comedy that has a world-wide reputation. Many audiences in different parts of America and in Europe have laughed heartily at the humor contained in the lines of this piece. The plot is such as to provide many amusing situations and the way in which the different characters manoeuvre in order to get out of the awkward positions in which they have placed themselves is at all times funny. Miss Harvey, who takes the leading part, has entirely recovered from the very slight cold she was reported to be suffering from. Yesterday evening in the dress rehearsal, she showed that she had lost nothing by being off the stage on one or two occasions when rehearsals were held. By being able to watch the others acting and by seeing the new wrinkles introduced into the interpretation of the role of "Celia" by the understudies, Miss Harvey has been able to add much to her own interpretation of the part and fills it excellently. All the cast have made quite a study of their respective roles and with the four weeks practice which they have had, are now settled into their parts perfectly.

Tickets have been selling very well and the management expects a capacity house. Some doubt seems to have arisen among the students at the university as regards the part which it is necessary to appear in full dress or not on Friday evening. Any man who wishes to go to the play but objects to putting on his dress suit for the occasion would do very foolishly to do so. It is certainly not necessary to appear in full dress at the Senior Play and any man who comes to the performance in his ordinary clothes, ought not to feel the least bit uncomfortable.

There will be another rehearsal to-day when the time will be devoted to a thorough running through of the more difficult scenes. Grouping and the getting on and off the stage have been paid particular attention to by the coaches. The stage has been carefully arranged and practically everything was arranged last night. Principal Peterson and several of the Deans have pronounced their intention of being present on Friday evening.

NOTICE.

The First Drill for those who have volunteered for the McGill General Hospital will be held on Thursday, the 4th inst., at 4.30 p.m., in the Assembly Hall, Medical Building. Every man who has volunteered must attend as groups and hours for further drills will be arranged on this date.

"Smoker" to Take Place of Pool Tourney

New Rules and Regulations must
Be Arranged by Committee

Owing to the fact that very little interest has been displayed in the proposed pool tournament, it was decided at a meeting of the Union House Committee held last night to substitute a "Smoker" tournament.

This is an innovation that should prove a great success, considering the popularity that this nerve-tickling game is enjoying.

More "smoker" has been played during the last month than in a whole season previously, but the number of entries to the tourney will have to be limited. Owing to its novelty, the tourney will require a complete new set of rules and regulations to be drawn up; a competent committee is at present working on this and further details will be published shortly.

The committee front the Boxing, Wrestling and Fencing Club of the great hall in which to hold the inter-faculty assault-at-arms on the seventeenth of the month.

McGill Rifle Team wins the Championship

Splendid Trophy will Remain on
Union Shelves Still Another
Year

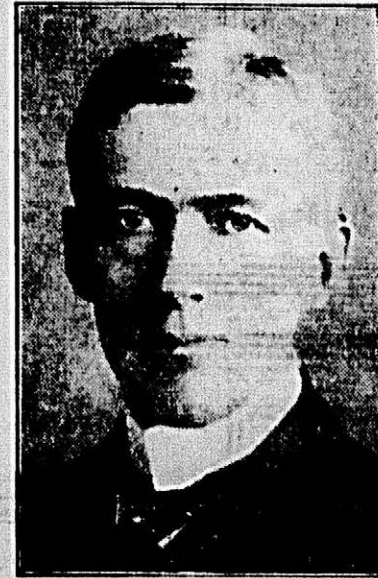

BETTER SCORES
THAN LAST YEAR

Members of Team May Be Con-
gratulated on Their Good
Showing

Word has been received from Ottawa that the McGill Rifle Team are again the winners of the Intercollegiate Shoot, and so the magnificent cup donated by the Dominion Rifle Association will remain for another year in its accustomed place in the Union. This cup is one of the largest now in possession of McGill and the team is to be congratulated on its success. Each member of the team will be given a miniature of the large cup in the Union, as an individual prize.

The following are the men composing this year's team, with their scores:

C. M. Bennett 100
H. Macpherson 98
A. T. Bone 95

DR. L. F. BARKER.

Of John Hopkins Hospital, Baltimore, Md., who will deliver address at the Medical Dinner.

D. S. McPhail 94
J. Sanders 93
K. Greene 92
D. Baker 92
D. G. Dunbar 91

This score is four points higher than that of last year's team, and is very creditable, the average being 94.6.

The outlook for next season is not very promising on account of the Government calling in all rifles issued to civilian rifle clubs, but possibly by next fall, some new arrangements will be made.

The Alma Mater Dance Question Before Council

Faculty Representatives to Ascertain
Opinion of Students in
Various Faculties

The Students' Council held its regular weekly meeting in the Union last evening.

The chief business was the matter of holding the annual Alma Mater Dance. This was brought to the attention of the meeting by the president. After a lengthy discussion, in which the members were about equally divided, it was finally decided that the matter be brought before the attention of the various classes of the university by the faculty representatives, because it was felt that it was a matter which affected all the undergraduates.

Constitution of Arts Undergrad Soc. Unchanged

The Three Members Who At-
tended Meeting Could Not
Change It Unaided

Written by the club who was told off to cover the meeting. What might have happened.

A large enthusiastic meeting of the Arts Undergraduate Society was held in Strathcona Hall last evening. About seventy-five were out to hear the discussion on the revision of the constitution and action on the recommendation of the Students' Council. The discussion was hot and lively and many times the chair had to rule a point of order. No action was taken.

This is what did happen really. The meeting of the Arts Undergraduate Society which was to have been held last night in Strathcona Hall was a cheerful fiasco. The people who turned up were two officers, the acting president, the secretary and the long-suffering Daily reporter. The meeting was called for 7.45 and at

Nominations For Canadian Club Asked

Members of Present Executive
Ask for Relief from Duties

The executive of the McGill Canadian Club has decided that it would be to the advantage of the club to call for nominations for the 1915-16 executive immediately, as the present members find that they cannot give the necessary time to their duties. The president of the club having volunteered for foreign service is busy every afternoon and evening while the vice-president finds that his work is very much increased for reasons indirectly connected with the war.

As it will be remembered, nominations were called for early in December, but none were sent in to the secretary-treasurer, Frank Parkins, so the executive was forced to remain in office. Two more meetings at least should be held this year and there is no reason why they should not be as successful as those held already, when Sir Robert Borden and Major-General Sam Hughes addressed the McGill students.

The executive of the club is made up of a president, vice-president, secretary, literary correspondent and treasurer. Nominations for these four offices signed by at least ten undergraduates will be received by the secretary, Frank Parkins, up to February 10. The election will take place at a convenient date soon afterwards.

Three hundred trees will be set out on Arbor Day. Many of the trees have been donated by members of the faculty and student body. This is one of the first steps toward beautifying the campus.

Senior Hockey Team Starts on Trip To-night

Lorne Montgomery Forced to Retire From Hockey With Broken Arm

The Hockey Squad held the last workout last night at the Arena before leaving for Boston and New York. The management have not said anything about their chances but it is evident that they at least expect to give the hockey teams of the two large American colleges a good run for honours.

Early, so far, has been exceedingly unkind to the defence and in this winter and she is still pursuing her victims. Lorne Montgomery, who has been putting up such a splendid game in goal this year had his arm broken Tuesday night at boxing practice. He will be sadly missed on the trip to the States. "Terry" Hall is also suffering under the weather. He is suffering from an attack of tonsillitis. However, if nothing more serious sets in he will be able to make the trip. Otto De Muth, as has been previously announced, has had to withdraw from hockey for this year at least. His wound upon the defence will be greatly missed. However, Kendall and Morris should be able to show something to our brothers across the line. Both are steady, if not brilliant hockey players and can be relied upon to do their share. They are fairly fast and are good puck-carriers. Eric Parsons was out also in uniform and out loose with some of his old time dash. He can be relied upon to live up to the reputation he made in the last games in Boston and New York. Rainboth was out and let loose some of his old-time shots. He plays good combination and is doing in better in the game every game. Andrews was about and every hardest worker on the forward line, out last night. He has a swift shot but it is a little wild in direction. Rooney was not out and his place was taken by "Dud" Ross, who played such a fine game in Kingston Monday night. His weight should help the forward line out quite a lot. Marson played left wing for the team and held it down in fairly good style. He burred in fairly well but had the tendency of shooting from too far out. His back checking is decidedly weak, however. "Shorty" MacNeil was in through their paces last night as Coach Robert had to leave early. Rochester, a new comer to the squad, was given a tryout and showed up fairly well. He was not tested as much as was Clark at the other end of the ice with the second team as his help-mates. Clark handled himself in his usual good style, stopping shot after shot. McKenzie and Lyons played defence for the seconds and put up a creditable showing. On the forward line were Ritchie, Blair and Keleth. They, however, with the exception of Ritchie, were inclined to loaf too much except when someone handed them the puck. Ritchie was on and he got most of the time, however, and helped to keep things moving. Work almost stopped at intervals at intervals Terry Hall and Rooney were the only regulars absent.

The following men are requested to be at the Bonaventure station at eight o'clock sharp to-night. As the train leaves at 8.15 the men must be there at least a quarter of an hour before then:

Mann,
Kendall,
Morris,
Hall,
Rainboth,
Parsons,
Andrews,
Rooney,
Marson,
Ross.

RECORD BREAKING THE RULE AT YESTERDAY'S INDOOR MEET

Relay Race a Thriller, Hugh Crombie, Karl Forbes, H. Wood and Eric Cushing, of Science '17, Win in Wonderfully Fast Time
AS LAMB MAINLY RESPONSIBLE FOR RECORD MEET

Jeffrey and Klein Are Tied For The Individual Championship, Each Scoring Thirteen Points — Thomas Woods, Sutherland and Cushing Also Star

The indoor meet of yesterday proved a great and unequalled success. This has beyond all doubt become a regular annual college event, and the interest taken shows how the fellows have grasped the idea. Six records were broken in the course of the afternoon which is in itself quite enough to show the keen competition which resulted in practically all the events. The marks set were good ones, as can easily be seen by the following list of the new records, together with those broken:

Event—"8 Potato" Race.
Old Record—33.2-5 secs.
New Record—33.1-5 secs.
Present Holder—Schofield.
880 Yards—
Old Record—2 mins. 30.1-5 secs.
New Record—2 mins. 28.4-5 secs.
Present Holder—Woods.
Shot Put—
Old Record—41ft. 3-12in.
New Record—43ft. 6-12in.
Present Holder—Sutherland.
Standing Broad Jump—
Old Record—9ft. 5-12in.
New Record—9ft. 6-12in.
Present Holder—Klein.
Running High Jump—
Old Record—5ft. 2-12in.
New Record—5ft. 3-12in.
Present Holder—Cushing.

The outstanding record-breakers were Klein, with his two new marks, and Woods, in the half-mile. Schofield also did very well to lower the old time for the potato race.

Mention must also be made of the times made in the two new events in this year's programme. Both marks can be classed as real records, likely to stand for some time to come. Thomas, who holds the 220 record put up a most creditable performance, and the Track Club look to him to show up even better in outdoor work next fall. He is a freshman in Arts, and quite new to the running game, but he surely is a comer. His second place in the 220 yard dash was won by sheer speed, as he passed a couple of men, even in that short stretch during the final of the event.

The relay race was a hummer. Rivalry was very keen. Both teams running in the final were from the year '17, one from Med. '17 and the other from Sci. '17, two star classes. Under the conditions the time was wonderfully good. For Medicine, Joe Moore had put up a very hard race in the mile, just a short time before. For Science, Woods had paced the 880 in record-breaking time, while Cushing had already run in the potato race, and the 440. Walter Jeffrey, one of Science's stars, was done up after running the 440, and immediately afterwards the 220, to take part in the relay.

The race was a corker from start to finish, and was won by a bare five or six seconds. This makes the average 9.3-5secs. This makes the average

for each man for the 230 yards, 32.2-5 secs., which is equivalent to the record that each man ran the 220 in 31 sec. flat. When it is realized that the 220 record is only 29.2-5secs., the quality of the two teams will be clearly seen. The Sci. '17 men were Crombie, Forbes, Woods and Cushing. The Meds. Moore, Kish, McGregor and Matthews.

The closeness of the race for the individual championship is another indication of the class of the meet. As the marks began to pile up it was soon seen that Jeffrey and Cushing were neck and neck. But the surprise was furnished by Dan Sutherland and Ben Klein. Dan's feat of taking second in both the standing broad jump and the 3 standing broads, was particularly good in a weight heavier, and deserved a place in the fourth place in the individual standing. Especially is this true when it is added that he was only beaten by one-half an inch in the 3 standing broad jumps. If he had won this event he would have been on a level with Jeffrey and Klein in the final result.

Klein's work in the jumps was in the nature of a sensation. In each of the events which he won, he set a new mark. Klein, who was won a place on the track team of 1913, did not turn out this fall, but his performances yesterday mark him as too valuable a man to lose sight of, and he will be heard from again next fall.

Jeffrey showed up a very best form. The fact that he was able to win the 20 yards dash for the second year in succession, is proof enough that he was running in fine fettle. He took the quarter mile from Cushing in a pretty race, and while he lost to Thomas in the 220 very soon after, he might have done better had not the 440 tired him out a good deal.

The final standing for the individual trophy and badge was:

Jeffrey 13 points
Klein 13 points
Cushing 12 points
Sutherland 11 points
Antliff 10 points

The tie between Jeffrey and Klein was left unbroken until the Track Club could think up some fair method of deciding the winner.

Antliff made an extremely good showing in the meet. After winning the mile, missing a record by three-fifths of a second, he went into the high jump and gained a very good third, he and Klein having a jump off for second place. Then, as though that were not enough, he ran in the finals for the half-mile, running second to Woods.

Don Smelzer had hard luck, not coming up to expectations. He is new on indoor work, and will undoubtedly again star on the track team next fall.

Schofield is a promising find. He ran well in the "8 potato" race and his record should help to keep him interested in the work.

Special mention must be made of the exceedingly able manner in which the officials conducted the meet. The whole schedule, down to distributing

Intermediates Basketballers Score a Win

Defeat Westmount Y.M.C.A. 42-28—Good Combination Marked Playing of Winners

An exciting game was played by the McGill Intermediate basketball team with the Westmount Y.M.C.A. five last night. The Red and White players were returned victors by the score of 42-28.

One would not recognize the McGill squad as the same team that played Macdonald a week ago. The men were in much better condition and played a passing game which at times the Y.M.C.A. boys were not able to withstand.

With the team travelling at its present clip, McGill should land another championship. The members of the team are practising conscientiously and are doing their best to bring the honor to McGill.

For McGill, Hyndman, Pitts and H. Ferguson were the stars, while McGone and Robertson were easily the best of the Westmounts.

The teams:

Westmount Y.M.C.A. McGill
Moore forward Hyndman
Davis forward forward Pitts
Robertson centre centre Kert
P. Cottle guard guard Seath
G. Cottle guard guard H. Ferguson
Carter spare spare Kemp
Ferguson

THE ROVER

A Toronto paper's opinion of the Varsity-McGill hockey match of last Saturday.

University of Toronto scored a decisive 12 to 2 victory over McGill University of Montreal in the opening game of the senior intercollegiate league at the arena on Saturday afternoon. The locals led by 2 to 0 at the first intermission, but McGill tied up early in the second period at two all. Varsity then secured another brace of goals before the second interval. In the second stanza, they made a show of their opponents, notching eight goals, while the visitors were held scoreless.

Varsity is a much improved team over the last appearance here, but for McGill—well, they were a shine.

The brand of hockey served up was much below that of former years in the senior intercollegiate. The first period was very tame, but the play waxed up warmer in the second stanza. In the last session it developed into a Donnybrook, the players introducing all kinds of rough-house tactics. When the fracas was ended by the final gong the players had all vanished to the dressing-rooms following a free-for-all fight.

The standing of the clubs in the City League is as follows:

Club	W.	L.	T.	P.	A.
Victorias	5	1	2	26	14
Nationals	4	1	2	26	10
M. A. A.	4	1	2	19	16
Laval	3	4	0	22	26
McGill	2	4	1	15	25
Shamrocks	0	7	0	11	37

The individual scores in the City League to date show little change in position. Rainboth of McGill has assumed second place. The players and their scores follow:

Player	Goals
Clement	8
Rainboth	7
Slater	6
Chambliss	6
Fontbrland	5
Mowat	4
Lalabreque	4
Sargent	4
Bell	4
Mowat	3
Darling	3
Marson	3
O'Sullivan	3
Parsons	3
McMullen	3
Read	3
Meldrum	3
Bechard	3
Prasner	2
Magee	2
Allan	2
Sharp	2
Lajole	2
Galarneau	2
Rooney	2

The following men have each scored one: Hall, Morrissey, Orendorf, Ward, Badaux, Birrell, Dandorf, Lavigne, Ledoux, McGill, Slater, Springins.

"Dud" Ross, who played such a sensational game for the seconds at Kingston, will be carried by the Senior squad on the American trip this week-end.

Rainboth, who has been working so consistently at centre ice for McGill, appears well up on the scoring column, with only Clements to beat out for the leading position.

Pro mthe Queen's Journal:—
There was not a little interest taken here in the outcome of the McGill-Toronto hockey game played in Toronto Saturday afternoon.

It was conceded that neither university had a first class team this year but it can be said that McGill was learned that Toronto had won by the very one-sided score of 12-2. The Blue and White are just but light, and so far this year had been very deficient in team play.

After their victory over McGill, Toronto, we may be sure, will do their best to defeat Queen's here on Friday night. The Blue and White gave McGill a worse drubbing than Queen's did. As a result Toronto supporters no doubt have next Friday's game won already (on paper).

Apparently Varsity are becoming quite confident that they have a real hockey team according to the following article which appeared in their official publication:

Varsity's win over the Red and White Saturday will make Queen's sit up and take notice. Queen's did not beat McGill as bad at Kingston as Varsity did here Saturday. Perhaps the Tricolor will get a surprise when they hook up with Varsity.

Toronto's best of feeling was always in evidence between Varsity and the Red and White. Although players on both teams were inclined to mix it, and sometimes even came to blows, but a friendly hand-shake in the penalty box always closed the affair.

McGILL PHYSICAL EDUCATION SCHOOL LEAGUE CHAMPIONS

Trial Matches in Women's Basketball League on Saturday

The championship of the Mount Royal Women's Basketball League was decided on Saturday last, when the McGill School of Physical Education defeated the Macdonald College First team by the score of 17-9.

The game was closely contested from the start, and some good combination work and shooting was shown. Unfortunately, a slight injury was characterized by fouls it could not be said to come up to the standard of some of the previous matches played by the same teams.

In the B division of the league, a game was played between Teachers Second Team and Macdonald Second Team. This match was most exciting to watch, and the result was in doubt till the final whistle blew with Teachers the victors by a score of 24-23.

The final matches are to be played on Saturday, February 6th, when Teachers and Victorias will fight it out for third place in the league. In the B division, the McGill School of Physical Education Second Team is to go up against the Victorias Second Team.

All R.V.C. students are cordially invited to go and watch these matches.

Cols. Thompson and Rutherford, of the Militia Department, Halifax, were in Sackville, N.B., recently, and inspected Lindsey Hall, which has recently been refitted for a drill hall for the students of Mount Allison. Both military men were well pleased with the building and the class of men receiving training at the institution on the hill. The male students of the university listened to very inspiring addresses by Cols. Rutherford and Thompson in Eborac Hall, after which supper was partaken of in the University Residence. In the evening the students, numbering about 150, who are receiving training were put through their drill by other students who are far enough advanced to carry on the work, and the visiting militia men were highly pleased with the work. It is expected that an instructor will arrive shortly to carry on the drill work.

Drill-sergeant (to recruits)—I've told you forty times not to stand up as straight as if you'd swallowed a rain rod. Instead of that, you appear to have swallowed a dozen scimitars!—Tit-Bits.

HARVARD DEFEATED YALE IN HOCKEY GAME ON SATURDAY

Crimson Team Won the First Game in the Yale-Harvard Series

The Harvard University hockey team succeeded in winning the first game of the Yale series by the score of 4 to 2 in the arena last Saturday evening.

The victory was due entirely to the sensational work of two men, Phillips and Wyde, the former scoring three goals almost unaided, and the latter knocking down three of the possible shots at the net time and again.

On the whole, the University team was outplayed during the greater part of the game. The forwards, particularly the wings, were unable to penetrate Yale's defence, and the majority of the play was in Harvard's territory. The Yale forwards were speedier and more aggressive, with the exception of Phillips.

Yale was the first to score when Dickey drove the puck past Wyde on a long shot from the side after 7 minutes and 7 seconds of play. Shortly afterwards, however, Doty—who was substituting for Morfan on account of the latter's injured eye—astonished the routiers by dashing the length of the rink and scoring. Time 8 minutes, 25 seconds. Harvard went into the lead when Phillips by an exhibition of clever stick work, slamed the disc past Wyde from directly in front of the goal, time, 15 minutes. Murray evened up the score, however, just 56 seconds later on a clean drive from the left side and the half ended with the score 2 all.

Curtis and Baldwin took up the wing positions for Harvard in the second period and showed more fight and aggressiveness than had Wannamaker and Cunningham. Yale sent five men into the line and started a desperate assault on Wyde. The latter was more than a match for his opponents, however, and went through the second period without an error. Phillips scored the first goal of the half after ten minutes and 11 seconds of play by dashing the length of the rink, eluding Yale's outer defence, and driving the rubber past Wyde waist-high. Just before the game ended the same player tallied again on an individual rush.

"Do you succeed in loving your enemies?" "Not exactly," answered Senator Sorghum. "But I have a good deal of sympathy for them." "I didn't know they were going to be so good." "But they're going to be 1 get through with them."—Washington Star.

MANY PROMINENT OXFORD ATHLETES JOIN THE COLORS

Fifty-two of Last Year's "Blues" Are Now on Active Service

Recently published lists of Oxford University men show that 52 of last year's "Blues" are now serving with the colors.

Of these soldier athletes, A. N. S. Jackson, the great miler is perhaps the best known in America.

Already several Varsity heroes have been killed in action, including R. W. Fletcher, the bow in last year's Oxford boat.

Thirty-eight Colonial Rhodes scholars are in residence last year are also on active service.

Among the picked group of American Rhodes scholars who have been helping the American Relief Commission to distribute food, those expected to take their final examinations next June are now returning to resume residence at the university.

The Americans at Oxford in general have signified their readiness to help in the present in the following resolution passed by the American Club:

"The members of the American Club realizing that no demands will be made upon them inconsistent with the neutrality enjoyed upon American citizens by the United States Government, offer their services to the Vice-Chancellor for any other work or needs occasioned."

An Oxford Cambridge "Blue" is an undergraduate or graduate who has taken part in an athletic contest between the great universities.

Hope College, of Holland, Mich., has been offered an opportunity to widen its field of oratorical activities in being admitted to membership in the State Peace Oratorical Association. The place vacated by Hillsdale College.

The next contest will be held in Albion in April and the college faculty has selected John J. Boer, a senior student and president of the college Y.M.C.A., to represent the institution.

The University of Michigan is about to have a book "change opened" on her campus, under the auspices of the faculty. The plan has not been tried, but its backers are enthusiastically expectant.

Spring training for women's crews at California has commenced. Fourteen women from each class will compete in the annual interclass regatta, which will be held February 20. Later a picked crew will meet the oarsmen of Mill's College.

A FEW FACTS ABOUT BUSONI

Ferruccio Busoni, the great pianist, who is making a tour of America this season, made his debut in Berlin on November 3, 1894, and he played at this first concert, accompanied by the Philharmonic Orchestra, the Liszt A major concerto, and his own arrangement of the "Spartan" rhapsody; Weber's "Concert-stuck" and his own transcription of Bach's chorale for piano alone. His success was instantaneous and enormous, and this concert was followed by three others. Soon this new star from the south became the pianist of the day, and musical societies all over the Continent clamored for him. Since then Busoni has made Berlin his home, and his annual recitals here have come to be great events which are looked forward to by an eager public with keen anticipation. His concerts are invariably sold out, and the enthusiasm is boundless. Busoni has probably the greatest repertoire of any living pianist. He certainly has accomplished feats on the concert platform that no other pianist ever undertook in public; to mention one, in the fall of 1898, he played in four concerts given with the Philharmonic Orchestra, no less than fourteen concertos from memory.

Other Colleges

The Pasteur medal awarded annually to the winner in a comparative debate by Baron Ferdinand de Coudre, has just arrived at Harvard University from France. It was mailed in the first week of the European war.

New York University was surprised recently to find the Gould Memorial Library for sale, and so advertised by a big wooden sign bearing the name of a well-known real estate broker, perched high up on a ledge where only a bird could reach.

How the sign got there still puzzles the faculty. It was twenty feet above the floor, and to get it down janitors used a long pole, for it was quite beyond any available ladder.

The sophomores who placed it must have had the agility of a monkey.

John Adams Love, librarian of Williams College Library of Boston University, has been appointed agent for the free public library commission. The college's selection of Love, who is highly recommended by President H. A. Garfield of Williams College for his zeal and knowledge of library work, has been approved by Governor Walsh and the executive council.

The Battery A hockey team of Boston defeated West Point Saturday by 2 goals to 1.

The Royal Military College of Canada
THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and officers of the Canadian Militia. In fact, the Commandant and military instructors of all officers, from the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound, modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the college is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulation of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual military examination for admission to the College, takes place in May of each year, at the headquarters of the several military divisions and districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

THE MILITARY HAPPENINGS AT OLD MCGILL

McGILL OVERSEAS COMPANY TO GO WITH 38TH BATTALION

Parents' Consent Must Be Obtained in Writing Before Enlisting
—Officer Commanding Regiment Is McGill Graduate

COMPANY TO BE ORGANIZED AT ONCE

Officers Will Be Captain Barclay and Lieutenants E. S. McDougall, Dunton, Irwin, Pope and Wanklyn

Lieut.-Col. Robert Starke announced at last night's parade that the Military Committee had authorized the McGill Overseas Company to furnish the personnel of one double company to the 38th Battalion of the 3rd Contingent. At a meeting of the Military Committee held on the 15th of January, it was decided to make the offer but it was not until Saturday that any definite announcement could be made.

The Company will be recruited principally from the battalion and the McGill graduates and it is hoped that the full establishment of 100 officers and men will be secured from this source. If not, it is expected that many recruits will be obtained from the students of other universities.

It is also proposed to accept the personal friends of volunteers, who are not university students or graduates, to enlist should there be places for them.

Lieut.-Col. C. M. Edwards of Ottawa, who is to command the 38th Battalion, will be a great satisfaction to know that the McGill Company will be under the leadership of a McGill man. Captain Barclay will command the McGill Company with Lieut. E. S. McDougall as 2nd in command, and Platoon Commanders Irwin, Dunton, Pope and Wanklyn. These officers all joined the C.O.T.C. at the outbreak of the war with the intention of going to the front. Upon the organization of the battalion they were given commissions and in December last were successful in their qualifying examinations.

Steps will be taken at once to organize and enlist the company, and those desiring to volunteer should hand in their names to the Company Captains if they have not already done so. As soon as enlisted the of-

ficers and men will go on active service pay and allowances.

The military committee decided to ask the several faculties that, with regard to the class standing of any student volunteering, due consideration be given to the amount of time required of him for military training. The extent of this consideration will depend altogether upon the manner and spirit with which the students play the game with the faculties.

The fact that a student has realized the seriousness of the present crisis and has voluntarily offered his life and his services to his country will not be overlooked but at the same time he must manifest an honest desire to derive all possible benefit from his academic studies during such time as is not required of him for military training.

All students volunteering must obtain the consent of their parents in writing before enlisting and all volunteers will be subjected to a rigid medical examination before they will be allowed to enlist. The McGill Company must be one of the best that will go to the front and it is the intention of these in charge to make it so. The strictest discipline will be enforced and this will be made clear to every man at the beginning. The type of men enlisting will be the first to realize this great essential and to appreciate that it is all part of the game.

REGIMENTAL ORDER NO. 9

Montreal, February 3rd, 1915.
CANADIAN EXPEDITIONARY FORCE
McGill Company.

The necessary authority to furnish the personnel of one double company to the 38th Battalion C.E.F. having been received, all members of the Battalion desirous to enlist for overseas service will hand in their names to the Company Commanders as soon

as possible, unless they have already done so. Enlistment will be for the duration of the war. All members enlisting will receive active service pay and allowances from the date of their enlistment.

All students volunteering must furnish the written consent of their parents before enlisting.

Capt. and Adjutant,
A. R. CHILMAN.

GRADUATE NURSES TO LEAVE SOON FOR OLD QUEBEC

For the Base Hospital which is to Be on Active Service

Twenty-one graduate nurses will leave Montreal to-morrow for Quebec, where they will train at the Military Hospital for a month, preparatory to going to the front with the McGill General Hospital, which is to be established on the lines of communication and which is to go to France at an early date. The nurses include an equal number of General and Royal Victoria Hospital graduates and when they return from Quebec, another twenty-one will go to Quebec for a month's training, as forty-two nurses in all are going to the front with the hospital. Miss Medley, matron of the Quebec Military Hospital will be in charge of them.

Yesterday afternoon all of the medical students of McGill University who have volunteered to go with the hospital met at the medical building. Lieut.-Col. H. S. Birkett, Dean of the Medical Faculty, who will command the unit, presided and addresses dealing with the work of the hospital were given by Lieut.-Col. Robert Starke, Lieut.-Col. H. B. Yates, Dr. G. G. Adams, Dr. Elder and Major P. Burnett, who commands the Second Contingent Army Medical Corps from Montreal, and who told of having twenty McGill men in his corps. One hundred and thirty McGill men are expected to go with the hospital. They were asked yesterday to take twenty-four hours to consider the matter and told that if their names had not been withdrawn at the end of that period they would be considered finally as applicants to accompany the hospital.

MANY ARE ANXIOUS TO GO.

One hundred students are to be taken and Lieut.-Col. Birkett said last night that the men were anxious to go they were willing to accept any position with the hospital, even as orderlies. They will be chosen on the standard of their college work and their medical, nursing, and language records. The men will be given the men of the senior year their degrees before the hospital goes forward. The other medical men, however, will continue their course as usual.

Lieut.-Col. Birkett announced last night that David Law, of Law, Young and Company, an officer of the Montreal Home Guards, has been appointed quartermaster of the hospital and that Lieut.-Col. H. B. Yates has been appointed adjutant. Quartermaster Law leaves for Halifax very shortly to take a special course.

GENEROUS OFFERS MADE.

Commander Birkett has just received word through one of the officers of the hospital that a lady in the United States, whose name is known only to the officer, has volunteered to supply the administration of gas and anesthetics and also to supply sufficient gas to meet the needs for some time. A five seated touring car has also been anonymously donated to the hospital and the Montreal Soldiers' Wives' League, through Mrs. E. B. Burnett, have presented Col. Birkett with \$500 to purchase medical instruments other than those provided by the Government. An additional \$500 in smaller subscriptions has also been donated to graduates.

"Ladies' instructor to recruit who has fallen in dismounting." From where did you receive instructions to dismount, sir? "From recruit." From headquarters, sir? "Punch."

LETTERS FROM MCGILL GRAD. AT THE FRONT

C. B. Keenan, Surgeon-Major
With Princess "Pat's" Writes
of his Experiences

We are now brigaded with regulars and hope soon to get off to the front. This waiting is the hardest time. Things run very smoothly in this division and I feel as if the years had rolled back and I were again in South Africa.

We have four aeroplanes—interesting to watch them flying about and when we have had twelve hours without rain and are feeling much elated.

I took a long walk around Winchester to-day, the first chance I have had and it is very interesting. There is a fairly good city wall that has been in existence in King Alfred's time, any house less than a hundred years old is modern and the people still talk of the Saxon kings!

We seem a few, a very few, Canadians in this vast number of English—over 60,000 men—a camp twice as big as Valcartier. I hear that four thousands more are to come here from Salisbury and am glad to think that they can get a good brigade of Canadians.

Another wet day—the camp is one vast sea of mud—the men are wet through and have been wet continuously for two months.

One day of pouring rain. I have ceased to look for dry spots in England, simply splash straight ahead in rubber boots, waterproof coat (two-lined) and a rubber covering. My cap which has a flap and looks rather Russian, but is the only possible thing.

Still rain and mud! We were to play the girls of the Winchester school near the camp, a game of lacrosse and in spite of the rain, they insisted on playing. I played in my rubber boots and rain coat, and as none of the other officers had ever played before, they found some difficulty in reaching the open, and all experienced distinct sensations of intoxication. One of the men was so seriously affected that he collapsed upon reaching the open air, and lay there for some time before Mr. Beck attributes the intoxication to the fumes of the other, much of which escapes from the large supply kept in the room.

Since this time the painting has been continued, but men work only an hour or less at a time, to prevent the recurrence of the experience.

Bread, butter, jam and coffee for lunch. 1 better times are too good and I shall soon most horribly hunger.

I sleep in the room which we use as a dining-room. It is a large room with a huge feather bed covered with a canopy where I sleep, using my own sleeping bag. The floor is tiled with red tiles and there is a hole in the wall where the water which they pour on the floor, runs out. Then there is a small stove which looks like a stove-pipe and gives out very little heat, and a wooden ceiling—the kitchen stoves are very funny, they look like urns attached to ovens and have only one place for a large pot.

A nice little French girl waits on me, and the people are most kind, but I do long to go back to my old life. This war is over. Wonder if I shall have forgotten my surgery and my golf when I return!

Note: The Patricias were a month in Salisbury and another in Winchester and to-day we had soup, smoked her-

Ether Fumes Are Now Intoxicants

Men Employed at University of
Texas Go on an Innocent
Drunk

Three men were intoxicated recently while painting the interior of the chemistry laboratory store room of the University of Texas. This room is built underground and is located just back of the large water tank on the campus. It is constructed very strongly and is made of fireproof materials and is used for storing easily inflammable chemicals.

Recently the walls showed need of paint, so Mr. Beck and two of his helpers started in to do the work. The fumes of escaping chemicals were easily detached but no serious attention was given them. The three worked for several hours, when they began to feel very strongly, so they decided that they had better quit for the time. They found some difficulty in reaching the open, and all experienced distinct sensations of intoxication. One of the men was so seriously affected that he collapsed upon reaching the open air, and lay there for some time before Mr. Beck attributes the intoxication to the fumes of the other, much of which escapes from the large supply kept in the room.

Since this time the painting has been continued, but men work only an hour or less at a time, to prevent the recurrence of the experience.

Bread, butter, jam and coffee for lunch. 1 better times are too good and I shall soon most horribly hunger.

I sleep in the room which we use as a dining-room. It is a large room with a huge feather bed covered with a canopy where I sleep, using my own sleeping bag. REGIMENTAL BAND.

There is to be a full band practice this afternoon at 5 p.m., starting in McGill Union.
C. W. RYAN,
Drum-Major.

Christmas Box Brings Joy to A McGill Grad

Mysteriously Disappears and Six
"Tummies" Are Filled Instead
of One

SOLDIERS RECEIVE
"SIGN FROM HEAVEN"

Parable of Loaves and Fishes is
Repeated at Salisbury Plains

How at least one Christmas package addressed to a member of the Canadian Contingent went wrong is told in the following letter—Instead of one man benefiting from the box, Xmas joy was brought to six, one of whom was a McGill graduate, and who acknowledged the gift in very suitable terms. It was sent by the ladies of St. Andrew's Church, Sidney, N.S. It reads as follows:

Lark Hill, Dec. 29, 1914.
To the Ladies' Aid Society,
St. Andrew's Church,
Sidney, N.S.

"Dear Ladies:—This afternoon we found a most interesting box in our mail addressed to one 'McDonald' the Canadian engineers, 2nd Canadian Contingent. Dear ladies, this address is faulty as it will might be and we are satisfied that the contents may not reach poor Mack for some time to come. Doubtless previous experience had already acquainted him with the manifold perils and kind offices of the good ladies of St. Andrew's church, and led him to expect the gracious gift. Fearing that he might misinterpret his wildest hopes would render him unfit to perform his military duties, we deemed it expedient, and even altruistic, to divert said token in the interests of our fellow-man. We were confirmed in the decision when we took the occasion to peruse the reverse of the enclosed card and read the text—'A sign from heaven!'"

We may say right here that we were reminded of a deeply Sunday afternoon in the long ago, when, after telling us the wildest exciting story of Gilead or Gibeon—no, it was Gilead—dear teacher tailed off with a nasty remark about letting our good deeds and their good names across a naughty world, as did this old greaser when he whipped the torches out of the pitchers. Do you ever remember taking a sugar-coated pill? Honest, do you think it's playing the game?

One grand old truth has been very forcibly borne in upon us, to wit, the stirring message from the book of Jobelwe two quote the revised version, which we consider a much happier rendering than the original Aramatic, "Borrowed waters are sweet and bread eaten in secret is pleasant."

In conclusion we would say that your generous gift carried Christmas joy into six soldier "tummies" instead of one, which reminds us of the sower that went forth to sow, the sower's curse of oil and the five loaves and three small fishes. Something or other from Mother Goose, Grimm or Hans Anderson, sublime to the ridiculous, you think of it, ladies, as did this old greaser when he whipped the torches out of the pitchers. Do you ever remember taking a sugar-coated pill? Honest, do you think it's playing the game?

I'd really like to sign this. My modesty is not prompted by the fear of any run in with poor old Charles, but, gentle ladies, it is a serious matter to laugh at and treat lightly the mails, as witness Dick Turpin and others.

Thanking you one and all for your kind attention, I am,
Gratefully yours,
McGILL, 1912.

War Summary

These Articles Are Specially Written for the McGill Daily and will be Published each Day.

FRANCE

The Germans yesterday commenced a new drive on Paris, attempting to force a passage of the Aisne at St. Paul. The French Moroccan troops bore the brunt of the attack and are holding the position on the north bank of the river while reinforcements are being rushed to their assistance. Determined efforts are also being made to push forward the German lines at La Bassée.

BELGIUM

Reports from Amsterdam state that the British and French fleets are again bombarding the German base at Zeebrugge.

RUSSIA

It is reported that a Russian warship has sunk a German torpedo boat in the Baltic.

Along the Vistula the Russians are successful in their resistance of the German advance; while north of the Vistula the Russian forces have advanced within twenty-six miles of Thorn in East Prussia.

AUSTRIA-HUNGARY

In the Carpathians the Russians have been everywhere successful, the important Dukla Pass having been recaptured, and the combined Austro-German forces have been compelled to abandon their effort of the relief of Przemyśl. The Russian cavalry are reported to be near Budapest, the capital of Hungary.

TURKEY

Four of the chief forts at the mouth of the Dardanelles have been destroyed by the combined British and French fleets. All women have been ordered to leave Constantinople and the authorities there are seizing all supplies of food and clothing. The headquarters of the Cabinet have been removed to Asia Minor.

At the head of the Persian Gulf the British forces have defeated the Turks near Kurna.

EGYPT

The Australians have received their baptism of fire when they were victorious over the Turks near Nachl. The second contingent of Australians has arrived in Egypt and will be placed on duty at the Suez Canal.

CANADA

Extradition proceedings are being taken with the U.S. Government in the Van Horn case. No answer has been received from the American Government as yet.

Parliament opens to-day and will probably assume a military aspect. The principal legislation will be a large war supply vote.

DRILLS FOR THE WEEK

THURSDAY, FEB. 4th—

5.15 Instructional Drill "B" Company, C.O.T.C. Old High Sch.
7.15 Aiming, Secs. 5 and 6. Old High School.
7.45 Company Drill, "C" and "D" Companies. High School.

FRIDAY, FEB. 5th—

5.15 Lecture, C.O.T.C. "A" and "B" Companies, Eng. Buildg.
Instructional Drill, "D" Company C.O.T.C. Old High Sch.
Bayonet Fighting, Physics Building, "C" Company. Secs. 15-16.

7.00 Musketry, C.O.T.C. Armoury, "C" Company. Secs. 5-6.
7.15 Aiming. Old High School "C" Company. Secs. 7-8.

SATURDAY, FEB. 6th—

2.15 Battalion Parade. High School. Metcalfe Street.

Military News

Lieut. Macnaughton, the son of Rev. Prof. John Macnaughton, has been transferred from the 3rd Victoria Rifles to the 23rd Battalion that is leaving for Europe very shortly. Mr. Macnaughton had the honor of leading his class in the result of the recent exams. He is a member of Law '17.

Lieut. R. E. Stawert, of the 5th Royal Highlanders, who is a graduate of Science '14, and is registered in the graduate school, has been transferred to the 23rd and will soon be en route for the firing line.

Since the McGill Battalion is bound to suffer greatly by the recruiting for the McGill Company that is to be attached to the 38th Battalion of Ottawa, arrangements are being made to have recruiting opened again. This will commence at once, as the Battalion must be kept up to full strength.

It is understood that the men of the Battalion are to have first chance to go with the company, a hundred and forty have their names in already, and 275 officers and men are wanted. Captain Greer Barclay, who graduated in Arts in 1904 and Law '08, is to command the unit. W. E. Dunton, who is one of the Lieutenants, is an undergraduate in Arts '17. He is president of his class and it is sure that in great number of Arts sophomores will be in his platoon.

C. B. Keenan, who graduated from here in '97 in Medicine, is at present Surgeon-Major with the Patricias. A series of letters from him appears in another column. He won a distinguished service order in the Boer war and was one of the first with the Pat.

The men who are wanting to go with the Base Hospital on active service, will start work to-day in earnest, in the new Medical Building, when they will take their first lesson in stretcher drill.

The signallers have been doing good work lately, and last evening tried to work the wireless, but were hardly successful for as is the way with some machines, it refused to go.

It is a subject of much conjecture who the McGill 1912 is who replenished his inner man at the expense of the Ladies' Aid of St. Andrew's Church. We can hardly blame our boys for getting this Christmas box a la Dick Turpin.

"Why don't you do the modern dances?" "Oh, I know all the holds, but I can't slip into them quick enough."—Yale Record.

Abbreviations

For the benefit of the new signallers, the following miscellaneous signals are given:

VE—End of message.
RD—Read correctly.
CL—Come in.
NN—No more messages coming.
WW—Obolator.
LMI—Repeat.
WA—Word after.
WB—Word before.
WG—Go on, or spell out.
AAA—Full stop.
NV (—) Hypphen.
LT (—) Oblique stroke.
NR (—) Horizontal bar.
RR (—) Inverted commas.
RK (—) Parenthesis.
UK (—) Underline.
II (—) Break.
PP—Stop.
CC—Cipher.
Z—Block.

THE KAISER'S DREAMS.

I would indeed be a strange stroke of fate if Germany's collapse should be precipitated, as Senator Curry believes, by a lack of copper. Yet if the shortage of that metal in Germany is anything like what it appears to be, copper would seem to be the instrument chosen by fate for finally bringing home to the German people the realization that the Kaiser was delirious when he announced that "Our German people will be the granite rock on which Almighty God will compel the building of the civilization of the world." It was noted that the New York Sun only this week that a recent price quoted for a ton of copper delivered in Germany was \$775, while the price in England at the same time was \$291. This bears out the belief as to the famine in copper, and further corroboration is found in the seizing by the German Government of all copper goods, even kitchen utensils, for use in the making of ammunition. Obviously when the "last reserves" of copper are thus called in, the end is in sight, unless Germany can break the blockade established by the British Navy. And she is hardly likely to be able to do that.

WANT MEDICOS FOR DRESSERS.

Dr. J. C. Connell, Dean of the Medical Faculty, has just received a request from the Government through Col. Duff, medical overseas officer, for twenty medical students for dressers. —Queen's.

These Are Not the Times To Discontinue Advertising

(Prepared for the McGill Daily by the Desbarats Advertising Agency.)

¶ If there is one time when advertising should be continued, it's when few sales are being made, and business seems to be depressed.

¶ And that particular time is the present.

¶ The public soon forget an advertiser.

¶ The only way to remind them is to keep constantly telling them, by advertising, that you have the goods they need more than the money they are saving.

¶ The remark is frequently made that, during these war times, people will not buy luxuries.

¶ But what are luxuries? What might be a luxury for one man is a necessity for another.

¶ And remember, "The luxuries of yesterday are the necessities of to-day."

¶ The advertisers, who, in the face of all the talk about depressed business, have the courage to continue advertising, surely deserve the patronage of every reader of the McGill Daily.

ORIGINAL GENUINE Horlicks Malted Milk
Instantaneous Lunch, Invigorating.
The Food-Drink for All Ages—Highly Nutritious and Convenient
Rich milk, with malted grain extract, in powder form—dissolves in water—more healthful than tea or coffee. Used in training athletes. The best diet for Infants, Growing Children, Invalids, and the Aged. It agrees with the weakest digestion.
Ask for "HORLICKS"—All Chemists, Hotels, Cafés and Stores.
Don't travel without it. Also keep it at home. A lunch in a minute. In Lunch Tablet form, also, ready to eat. Convenient—nutritious.

RUSSIAN HEBREWS TRUE TO COUNTRY

Forgetting Persecution, they Declare Fealty to Czar and Rally to Defense of Country

If anything stands out clearly on the pages of recent Russian history, writes George Kennan in the Outlook, it is the magnanimity and patriotism of the Jews. Denied many of the rights of citizenship, forced to live in a great national ghetto, restricted in the learned professions, limited to a small quota of students in the universities and schools, crowded into cities without the pale and expelled from cities without the pale, insulted constantly by the reactionary press, accused of "ritual murder" in the courts, and beaten to death by pogrom rioters in the streets, the unfortunate Jew would seem to have little reason for loyalty or patriotic feeling; and yet since the war began they have subordinated personal resentment to a higher sense of duty, and for the sake of "the fatherland," have done all that the most ardent patriot could do to support the monarch who has oppressed them and to defend the state that has discriminated against them.

QUEEN'S DRESSERS TO LEAVE SHORTLY

Acting upon the request from the government or twenty medical students from Queen's to act as dressers the authorities at the college have notified the medical building calling for volunteers. Already a number of students have spoken to Dr. E. Etherington and have signified their willingness to volunteer. When the required number have been obtained the men will leave for Connaught Hospital, Eng., without further delay.

MEMORIAL WINDOW FOR LATE LORD STRATHCONA

The Dean and Chapter of Westminster have chosen a design for a stained glass window to be placed in the Abbey in memory of Lord Strathcona, who is described on the inscription as "A great Canadian Imperialist and Philanthropist."

DRAKE UNIVERSITY.

Miss June Holmes, of the Fine Arts College, has been decided the most beautiful co-ed in the University. It was a close race, five co-eds being within two votes of the leader. The question was settled by the men of the University in secret ballot.

Harvard College has set itself to economy in internal management with the aim of cutting down the annual deficit, which is \$50,000 this year. A cheap yellow manila paper is being used at the mid-year examination for the expensive white paper formerly used for questions.

A class in surviving has been formed at the University of Texas especially for law students. The law professors believe that knowledge of surviving is invaluable to a lawyer who has many land cases.

The Annapolis Academy fencing team defeated the Harvard varsity in a dual match at Annapolis Saturday, 7 to 2. Putnam and Nichols each won one bout for Harvard.

The West Point Academy basketball team defeated Lehigh University Saturday 19 to 6.

RUSSIAN GOV'T GIVES BIG ORDER

Ross Rifle Co. Gets an Order for 3,000,000 From the Czar

How to house 1,200 experts who will come here from Belgium to work in the Ross rifle factory on an order of 3,000 rifles for the Russian Government, was the problem discussed by the city council and a committee of prominent citizens, headed by Mr. Georges Morissette, at the City Hall this evening.

An order for 3,000,000 rifles has been placed with the Ross Rifle Company by the Russian Government. This, with the orders they already have on hand, will necessitate the employment of some 3,000 additional hands at the factory, and probably the enlargement of the plant to three times its present size. It has already been doubted since the outbreak of war.

The question of housing the twelve hundred Belgian experts who are to aid in the filling of the enormous order is a serious one, and a meeting of the builders of Quebec has been called for to-morrow morning, when they will meet the special committee of citizens to discuss the housing of the newcomers.

THE COLLIERIES.

Great interest was taken in the doings of the war council, part of "stars," who went out to the front to entertain the wounded soldiers in the base hospitals. A correspondent in the Wigan Observer points out that the opening performance of "That National Theatre at the Front," as Mr. Seymour Hicks called his party, was given in the Casino Hotel at Bournemouth, two and a half hours after the party's arrival. "Surely," adds the correspondent, "no member of the party can ever before have faced so strange and yet so sympathetic an audience. A temporary stage, draped with and surmounted by the flags of the Allies, has been erected at one side of the room, and in front of it were rows and rows of beds, each with its wounded occupant. Some were seriously injured that they could not even raise their heads to see their entertainers, but none were so bad that they could not appreciate the great programme. Here and there groups of convalescents in their blue uniforms and of nurses in their scarlet caps, made splashes of color that relieved the vista of white counterpane and glass window to be placed in the Abbey in memory of Lord Strathcona, who is described on the inscription as "A great Canadian Imperialist and Philanthropist."

Cornell will enter a one-mile relay team in the R. A. C. meet against Harvard next Saturday night in Boston, according to an announcement here. Coach Moakley has started Lewis, Star, Irish and Spelden to represent the Ithacans. Spelden will be the anchor man. He holds the mile intercollegiate championship. The other men are serving their second year on the track team.

South Bethlehem, Pa.—A couple of weeks will find Captain Chenoweth and Manager Search issuing the annual call for battery candidates for the Lehigh University baseball team. Shortly after that Coach T. J. Keady is expected to arrive and a general call will be sent out. It is planned to give all the candidates several weeks of indoor exercise to limber up, coupled with batting practice in the cage, so that when the diamond is in condition outdoor work can be taken up at an advance stage.
